

Why we're central to Craig's career

Craig Wilson
Sales & Service Manager
Golden Grove Branch

Q Why would you recommend working for Australian Central?

A It is a company looking towards the future and is creating new opportunities for staff as it grows.

Q How have you found the culture and team environment at Australian Central?

A It is a very welcoming and friendly organisation that is proud of its history. Due to the size of the company you get to know many people who can support you when the need arises.

Q What training and support have you received?

A I've attended many courses ranging from sales development skills, lending skills, referral training and self-motivation. The Rising Star workshop provided me with a chance to network with other employees. Recently I attended the Australian Mutuals Emerging Leader conference held in Brisbane, which provided extra support to enhance my leadership and management skills. It was also great to meet other credit union employees from around Australia.

General comments

As the Supervisor at our Light Square Branch, it shaped my career, as I was given the opportunity to learn the leadership skills required for a management role in the branch network. It also provided invaluable opportunities to deal with the staff in our Head Office on a face to face basis, in understanding how these areas worked. I've also established great networks as I moved throughout various roles within in the metropolitan area.

“It is a very welcoming and friendly organisation that is proud of its history”
